

Why GO Wireless

Beabout Company and Control Microsystems are pleased to invite you to attend "Why GO Wireless", a chance to learn about the latest technologies and advancements in wireless field instrumentation. Ideally suited for consulting engineers, systems integrators and automation technicians involved in specifying, installing or configuring process control and monitoring systems; this seminar will introduce the Accutech product line, Control Microsystems family of tough, tested and trusted wireless instrumentation.

Agenda:

- Presentation on Why GO Wireless
- Economic justification
- Dangers of wired solutions
- How Wireless Solutions can save money
- Workshop
- Setting up and configuring a wireless sensor
- Field Devices
- Base Radio
- Network
- Take Wireless for a walk
- Confirm signal strengths
- Test various sources of interferences

SCADA Seminar Cost: FREE

Registration deadline: August 31, 2010

Seminar Dates: August 31, 2010 1:00 3:00 PM
September 1, 2010 8:00 - 10:00 AM
